KPMG’s EMA CR Network

KPMG’s EMA Corporate Responsibility (CR) Network is a group of KPMG firms across the Europe, Middle East and Africa (EMA) region that have a collective aim of delivering an effective and consistent CR strategy across national boundaries. The driver behind this initiative is to recognise the increased importance of corporate responsibility to our people, our firm’s clients and the wider community.

The group has established shared CR principles which outline the EMA region approach to CR and guide each member firm in their delivery. It has also agreed the governance of the group, taking into account cultural and regional diversity.
