

Directory of Circular Office Solution Providers

Collaboration across the supply chain is fundamental to creating a circular office. This directory provides a list of solution providers as featured in BITC's Circular Office Guide, and aims to help create a supportive network of like-minded businesses. This non-exhaustive list has been compiled using information found online. References in this document do not constitute or imply endorsement or recommendation.

Directory List

Company Name	Category	Description	Coverage
Greenredeem	Behaviour	Greenredeem provides online platforms where employees can receive points for taking positive actions, such as avoiding or recycling waste. Accumulated points can be exchanged for rewards or donations to charities. Greenredeem has found that its platforms can double recycling rates. greenredeem.co.uk	UK
bio-bean	Biofuel	bio-bean manufactures a range of biofuels and biochemicals from waste coffee grounds. These can save businesses money (the costs for waste coffee collection are usually offset by a reduction in the costs of disposing of other waste streams), reduce greenhouse gas emissions, and displace usage of conventional fossil fuels. bio-bean.com	UK
Olleco	Biofuel	Olleco collects used cooking oils, fats and food waste from catering and hospitality businesses. The waste food is converted into renewable energy and heat, which in turn power a biodiesel plant, where used oils are transformed into high-quality fuel. olleco.co.uk	UK
GiveMeTap	Catering supplies	GiveMeTap is a social enterprise which supplies reusable water bottles. For every bottle sold, GiveMeTap provides 5 years of clean water to someone living in Africa. givemetap.com	Global
Vegware	Catering supplies	Vegware is a manufacturer of compostable foodservice packaging. Vegware's plant-based catering disposables are made from renewable, lower carbon or recycled materials, and can all be commercially composted with food waste where accepted. vegware.com	Global
Armstrong	Ceiling	Armstrong offers a closed loop recycling programme. They take back old ceiling tiles and	Global

		upcycle them into new ceiling tiles, eliminating waste. <i>armstrongceilings.com</i>	
Delphis Eco	Cleaning supplies	Delphis Eco provides plant-based and biodegradable cleaning products. Delphis Eco also uses 100% recycled plastic in its packaging and provides reusable bottles for its products. <i>delphiseco.com</i>	UK
Ecover	Cleaning supplies	Ecover manufactures cleaning products made from plant-based and mineral ingredients. Ecover also uses recycled plastic in some of its packaging and allows customers to refill washing-up liquids, laundry liquids and all-purpose cleaners at refill stations across the UK. <i>ecover.com</i>	UK
Janitorial Express Eco	Cleaning supplies	Based in London, Janitorial Express Eco supply a huge range of janitorial products including 'Cradle to Cradle® certified' solutions. These concentrated chemicals are stored in fully recyclable bottles made from 25% recycled and 75% plant-based plastic specially engineered for a circular future. Now offering a bottle recycling service and Microfibre laundry, Janitorial Express Eco aim to promote a truly circular economy. <i>janitorialexpress.co.uk</i>	UK
Desso	Flooring	Desso carpets follow the Cradle to Cradle® concept so that the products can be returned and the materials safely recycled into new high quality products. Desso together with De Lage Landen also offer a carpet leasing service option. <i>desso-businesscarpets.com</i>	Global
ECONYL	Flooring	ECONYL® is regenerated nylon made of nylon waste from landfills and oceans. It is used to make synthetic carpets. <i>econyl.com</i>	Global
Greenstream Flooring	Flooring	Greenstream Flooring is a one-stop-shop for the fitting, cleaning and supply of new and reclaimed carpet tiles and other flooring, all for community benefit. It also offers a nationwide 'zero waste to landfill' recovery service for the unwanted commercial flooring. Greenstream	UK

		<p>Flooring guarantees the recovery of the value of otherwise wasted flooring for the benefit of the community.</p> <p><i>findcarpettiles.co.uk</i></p>	
Interface	Flooring	<p>Interface offers flooring products from recycled materials and aims to close the loop by taking its customers' flooring products back at end of life. Across its portfolio, 60% of Interface's raw material usage is now sourced from recycled or bio-based sources. In the UK, Interface works with social enterprises such as Greenstream Flooring to not only divert carpets from landfill but also create positive social impact.</p> <p><i>interface.com</i></p>	Global
OLIO	Food waste management	<p>OLIO connects neighbours with each other and with local shops so surplus food and other items can be shared, not thrown away.</p> <p><i>olioex.com</i></p>	Global
Crown Workspace	Furniture	<p>Crown offers a comprehensive range of services for the resource efficient management and sustainable clearance of office furniture and redundant equipment. Crown remanufactures the collected items for continued use within a client's organisation or for resale, and also works with charity partners to donate unwanted items which help those in need.</p> <p><i>crownworkspace.com</i></p>	UK
Ministry of Furniture	Furniture	<p>Ministry of Furniture is a social enterprise which provides remanufactured office furniture and employs people with barriers to work, including disabilities.</p> <p><i>ministryoffurniture.com</i></p>	UK
Rype Office	Furniture / Office design	<p>Rype Office designs space efficient office layouts and reuses, repairs and remanufactures furniture. The company offers leasing or guaranteed buy back of furniture when it is no longer needed. Rype Office also takes on disadvantaged staff, and partners with social enterprises.</p> <p><i>rypeoffice.com</i></p>	UK
Collecteco	IT and electrical equipment	<p>Collecteco partners with businesses across the UK to donate furniture, equipment and materials to charities, schools, NHS Trusts and other not</p>	UK

		for profit organisations to empower good causes to maximise their spending on impacting on communities and helping people, rather than buying new kit. <i>collecteco.co.uk</i>	
Crown Workspace	IT and electrical equipment	Crown offers a Renew IT service which helps to manage redundant IT and electrical items securely and sustainably. After the unwanted equipment is collected and audited, all data is securely wiped and data bearing devices are destroyed. Then the equipment is remanufactured for resale or donation to schools, charities and social enterprises. Where IT and electrical equipment is not suitable for reuse, it is recycled. <i>crownworkspace.com</i>	UK
Reuse Technology Group Ltd	IT and electrical equipment	Reuse Technology Group Ltd provides IT WEEE disposal solutions, including remanufacturing and recycling. <i>reusetechgroup.com</i>	UK
Ricoh UK	IT and electrical equipment / Office design	Ricoh usually leases its products to customers and retains the ownership. If a product no longer works as it should, Ricoh first tries to repair it, so the customer can keep on using the same appliance. If repairing is not possible, the next step is recycling. Ricoh will always try to re-use as many parts as possible. Ricoh also offers products and services designed to optimise energy usage; a portfolio of 'Reduce, Re-use, Recycle' products and services, as well as low cost pre-owned devices for developing countries. In addition, Ricoh helps with agile working which helps to use office space more efficiently. <i>ricoh.co.uk</i>	UK
S2S	IT and electrical equipment	S2S helps to manage IT equipment at end-of-life, offering refurbishment, resale and recycling. <i>s2s.uk.com</i>	UK
Techbuyer	IT and electrical equipment	Techbuyer keeps quality data centre equipment in use for longer and reduces e-waste with its refurbishment process. Businesses, schools and universities are offered competitive prices for their excess and redundant IT hardware, have 100% of their data erased with industry leading	Global

		software, and receive full certification for all devices. The refurbished equipment is then sold as a quality IT solution. Techbuyer is a Yorkshire business that began with just two people in Harrogate in 2005, and now has 150 employees across seven locations worldwide. techbuyer.com	
Tier1	IT and electrical equipment	Tier1 focuses on IT equipment reuse, refurbishment, remarketing and recycling. The recycling initiative is a partnership between a prison, industry and charity. The residents receive a qualification in recycling. tier1.com	UK
EGG Lighting	Lighting	EGG Lighting are developers, designers and consultants with a track record in sustainable innovation. Their mission is to reduce energy and material waste through technologies that enhance the spaces people use and help UK businesses save money. Through EGG's Circular Platform, businesses can get brand-new LEDs with no capital expenditure, as well as free and regular updates and maintenance, plus zero disposal fees. egglighting.com	UK
Philips	Lighting	Philips offers 'pay-per-lux' solutions, where Philips offers light as a service and retains responsibility for the performance of the lighting. Lighting fixtures are owned by Philips and rented to customers, incentivising resource efficiency. philips.com	Global
Amey	Online marketplace / Resource matching	Revive is an initiative Amey has launched in Cambridge aimed at encouraging people to bring unwanted items to a recycling centre where they will be advertised on a platform to encourage their reuse and exchange. The goal is to drive up the volume of transactions in the re-use shop at the recycling centre and reduce the amount of waste being sent to landfill. amey.co.uk/workingsmarter/smart-projects/revive	Cambridge-shire
Enviromate	Online marketplace / Resource matching	Enviromate is a platform which enables purchase, sale or donation of leftover/suprlus	UK

		building materials, keeping them in circulation and retaining their value for longer. <i>enviromate.co.uk</i>	
Invest NI / International Synergies NI Ltd	Online marketplace / Resource matching	The resource-matching Industrial Symbiosis Service can find solutions to use one organisation's wasted resources and match them with other organisations that can make use of these to the mutual benefit of both parties. The physical exchange of wasted resources applies to all industry sectors and resource examples include; materials, water, energy, process by-products, redundant equipment, skills and expertise. <i>investni.com</i>	Northern Ireland
Reyooz	Online marketplace / Resource matching	Reyooz is a platform which delivers a reuse and redistribution service by finding new homes for unwanted office furniture and business equipment from corporate clearances. <i>reyooz.com</i>	UK
Newlife Paints Ltd	Paint	Newlife Paints Ltd reprocesses waste water-based paint back into a premium grade emulsion. All products in the paint range guarantee a minimum 50% recycled content, made up from waste paint diverted from landfill or incineration. <i>newlifepaints.com</i>	UK
Paint360	Paint	Paint360 re-engineers waste paint back into brand new paint, collecting waste paint from hazardous waste management companies, councils and contractors, increasing recycling rates and delivering a true closed loop service to customers. Paint360 is a social enterprise which engages young long-term unemployed people as the core of their workforce. <i>paint360.co.uk</i>	UK
Seagulls Reuse	Paint	Seagulls Reuse is a social enterprise that collects unused or unwanted paint from households around Leeds and remixes it to be sold from its shop. Paint can be bought from the shelf, or mixed to bespoke colours. The profits from the business go back into helping the local community, from donating paint to those in social housing, community arts projects, and lifeskills training for those in need.	Leeds, UK

seagullsreuse.org.uk

Adaptavate	Partitioning / Walls	<p>The key product offered by Adaptavate is Breathaplasta, a bio-composite alternative to cement and gypsum plasters. Breathaplasta regulates moisture and improves insulation to deliver a healthier and more energy efficient environment.</p> <p><i>adaptavate.com</i></p>	UK
ECOR	Partitioning / Walls	<p>ECOR is a composite panel formed from cellulose fibers sourced from Old Corrugated Cardboard (OCC), Old News Print (ONP), office waste, forest waste, agricultural fiber, and even bovine process fiber. ECOR enables waste materials, ordinarily burned or landfilled, to be converted into a strong and versatile structural composite panel. It is 100% bio-based, 100% comprised of recycled waste materials, 100% recyclable, and is Cradle to Cradle® compliant. It can be used for wide format printing, furniture & fixtures and architectural interiors.</p> <p><i>ecorglobal.com</i></p>	Global
Paper Round	Stationery	<p>Paper Round provides a complete environmentally-friendly office stationery range. It also supplies closed-loop products including Image paper and eco toners. In addition, Paper Round can provide bespoke solutions, such as stationary manufactured from waste collected at a customer's site.</p> <p><i>stationery.paper-round.co.uk</i></p>	UK
Steinbeis	Stationery	<p>Steinbeis provides 100% recycled, sustainably produced, high-quality paper.</p> <p><i>stp.de/en/</i></p>	Europe
JLL	Strategy consulting and implementation	<p>JLL is a real estate specialist with over 20 years of experience in sustainability. JLL helps clients identify their opportunities in a circular economy. JLL's services range from developing circular strategies for office moves, fit-outs and day-to-day operations to managing individual initiatives and programme roll-outs.</p> <p><i>jll.co.uk</i></p>	Global
PwC	Strategy consulting and implementation	<p>PwC support clients to develop tools that analyse the business case and the environmental benefits of circular economy</p>	Global

		<p>solutions. These tools can be used to analyse extension, reuse, remanufacture and other circular economy options.</p> <p><i>pwc.co.uk</i></p>	
VClean	Textile cleaning	<p>VClean provides dry cleaning using solvent-free, ecological solutions.</p> <p><i>vclean.life</i></p>	UK
JMP Wilcox	Textile recycling	<p>JMP Wilcox & Company Ltd are the largest licensed textile reclaimers and processors in the UK. Wilcox specialises in the grading and packing of second-hand clothing for export and the re-use of materials not suitable for rewear.</p> <p><i>jmpwilcox.co.uk</i></p>	UK
Brother Industries	Toner cartridges	<p>Brother Industries allow customers to send their used printer ink cartridges and toner cartridges for recycling at no cost.</p> <p><i>brother.co.uk</i></p>	UK
Recycling Lives	Waste management	<p>Recycling Lives use their commercial operations in recycling and waste management to support and sustain charity programmes for offender rehabilitation, residential support and food redistribution. They offer total waste management solutions, meaning they collect, process and recycle all waste streams - from scrap metal, scrap cars, general waste and WEEE, to plastics, paper and cardboard. They also offer waste management consultancy, national skip hire and scrap car collection services, compliance services, vehicle fleet disposal and recruitment services.</p> <p><i>recyclinglives.com</i></p>	UK
Veolia	Waste management	<p>Veolia provides businesses with bespoke circular solutions, focusing on extracting maximum value from the waste and resources in supply chains.</p> <p><i>veolia.co.uk/about-us/circular-economy</i></p>	UK
Viridor	Waste management	<p>Viridor uses strategic expertise to offer all 'waste' producers an opportunity to give resources new life - transforming domestic and commercial waste and recyclables into high quality raw materials.</p> <p><i>viridor.co.uk</i></p>	UK

Project Plan B	Workwear	<p>Project Plan B creates workwear garments made from recycled polyester, and at the end of wearable life every Project Plan B garment will be turned back into raw polyester before being spun into the fabric of new garments; closing the loop to create a circular polyester cycle. Each material is carefully selected to ensure a high standard of material, keeping purity high so that value is kept within the cycle.</p> <p>projectplanb.co.uk</p>	UK
National Hard Hat Recycling Scheme	Workwear	<p>In this membership scheme, registered members can send their hard hats directly into a dedicated hard hat recycling facility where they will be destroyed, with all the plastic being fully recovered and made back into “new” plastic pellets. These pellets are then sent back into UK manufacturing as a raw material.</p> <p>yesrecycling.org/hard-hat-recycling</p>	UK
